## **DETAILED ACTION**

This is a response to Applicants' amendments filed 7-2-02.

Claims 1 and 3-63 and 65 have been amended. Claims 2, 64, 68, and 73 are cancelled and new claim 74 has been added. Claims 1, 3-63, 65-67, and 69-72 are pending in this application.

The objection to claims 1, 3-63, 65-67, and 69-72 for containing non-elected subject matter has been maintained for the reasons set forth in the Office Action mailed 1-29-02. The rejection of claims 65, 68 and 73 under 35 U.S.C. 112 has been overcome with Applicant's amendments. The objection regarding two claims numbered as "31" has been overcome with Applicant's amendments.

### ***Response to Arguments***

Applicant's arguments filed 7-02-02 have been fully considered and have been found persuasive with respect to the claim rejections under 35 U.S.C. 112 and the objection to two claims numbered as claim 31. However, Applicant's arguments regarding the restriction requirement have not been found persuasive.

Applicant remarks that an apparent restriction of the present case for examination has been made *sua sponte* by the Examiner wherein the genus of claim 1 has narrowed to R<sup>1</sup>=oxazolyl and R<sup>2</sup>-R<sup>8</sup> has been narrowed to exclude the choice of R4-R8 forming the heterocyclic ring.

Upon the election of a single disclosed species, a generic concept inclusive of the elected species was identified by the Examiner for examination along with the elected species. All claims were examined commensurate in scope with the generic

Art Unit: 1626

concept identified by the Examiner. The Examiner has identified a generic concept for searching because formula I contains numerous variables which have widely divergent meanings. Further, the genus of formula I encompasses a plethora of compounds which are variously classified. The Examiner must perform online structure searching in addition to a classification search. Not to restrict would impose a burden on the examination of this application.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
